SIX PER CENT. GOLD BONDS

OF THE

Portland and Ogdensburg R. R. Co.

DUE IN 1900.

Free from Government Tax.

The line of this Road is from Portland, Maine, to Swanton, Vt., and is many miles the shortest communication between the Lakes and the Seaboard.

The Eastern division, upon which this mortgage is issued is now under construction from Portland to North Conway, White Mountains, a distance of sixty miles.

Forty miles are already completed, upon which trains are running. The remaining twenty miles are nearly completed, and will be ready for traffic early in July, 1871.

$1,200,000 cash subscriptions have already been expended upon the Road, and this mortgage of the unusually small amount of $13,000 per mile has been issued for the purpose of thoroughly equipping and completing the road, and covers all the real and personal property of the Company.

These very desirable Bonds are for sale at 90 and accrued interest, in currency, by

The Most Desirable Security in the Market!

EUROPEAN & NORTH AMERICAN RAILWAY BONDS.

The European & North American Railway is completed from Bangor to Winn, Maine,—a distance of 66 miles, and on this portion, from local traffic alone, is doing a large, remunerative and continually increasing business. To complete the through line from Bangor to Saint John, New Brunswick, there only remains to be finished the portion from Winn to the boundary line of the State of Maine at Vanceboro', a distance of fifty-eight miles, (the line thence to St. John being already completed and trains running regularly thereon.)

On this connecting link of Road the work is being pushed forward towards completion with all possible dispatch; the road-bed, and the greater part of the masonry, culverts, &c., being now nearly done. Hundreds of men are at work, both from Winn EASTWARD, and from Vanceboro' WESTWARD, completing the Road and laying the track, and on April 1st, six miles were finished and cars running thereon. The remainder will undoubtedly be finished in September next, and the Road will then be

THE ONLY RAILWAY

CONNECTING THE UNITED STATES AND THE BRITISH PROVINCES, (Now Brunswick & Nova Scotia.)

The population of the Maritime Provinces is about ONE MILLION, and the land travel, freight, mails, &c., between them and the United States, will all pass over this Trunk Line. In order to aid in the completion of the European & North American Railway from Winn to Vanceboro', and to equip the Road in the most thorough and first class manner (as required by its present large business as well as by the heavy increase in passengers and freight consequent upon its completion) the Company has issued its Bonds to the amount of TWO MILLIONS OF DOLLARS ($2,000,000) secured by a

FIRST AND ONLY MORTGAGE

On its Entire Road from Winn to Vanceboro, a distance of Fifty-eight miles, and in addition thereto,

A FIRST MORTGAGE OF 800,000 ACRES OF LAND!

These lands being the same granted by the State of Maine to this Company to aid the construction of the Road,—and said lands equal in extent some FORTY (40) TOWNSHIPS! They are situated along the Penobscot and St. John rivers, and branches tributary thereto, and are heavily timbered and valuable Large tracts, especially in the fertile and famous Aroostook Valley, are valuable for farming lands, as well as for their timber. It is believed that the proceeds of sales of these lands and the lumber therefrom will alone be ample to pay the entire amount of these Bonds at maturity.

In addition to the above named security, which is ample,—these Bonds are also secured by a SECOND Mortgage of the entire line of the Road and Equipments from BANGOR to WINN, a distance of fifty-six (56) miles. (This part of the Road cost some $2,300,000, and the City of Bangor has a mortgage thereon for one million dollars to secure its Bonds for said amount issued to the Company.)

The TRUSTEES under this $2,100,000 Mortgage are HON. HANNIBAL HAMLIN, of Bangor, Me., and J. EDGAR THOMSON, ESQ., of Philadelphia, Pa.

The Bonds are dated March 1st, 1869, payable thirty years from date, and are issued in denominations of $1,000 EACH.

WITH INTEREST AT SIX PER CENT PER ANNUM,

Both Principal and Interest Payable in GOLD COIN, free of U. S. Government Tax.

Coupons payable in New York March 1st and September 1st of each year.

As an additional precaution for safe keeping, purchasers can have the Bonds Registered by the Treasurer of the Company, if desired.

Bonds issued with Interest Coupons (£6. each) payable in London, England, if preferred.

SINKING FUND. As a still further security for the payment of these Bonds, a SINKING FUND has been established. All proceeds of sales of the lands, as well as of timber and other products therefrom, are by the Trustees to be invested (FIRST) in these Bonds if they can be bought at par or less, and (SECOND) in United States, State, or Municipal securities, in case these Bonds cannot be obtained at par. And on July 1st, 1879 and annually thereafter until the Bonds become due, the European & North American Railway Company are, by the conditions of the Mortgage, bound to pay to the Trustees, to be added to the Sinking Fund, a sum of money equal to one per cent. of the amount of Bonds outstanding. Such amounts, together with all interest received on securities belonging to the Sinking Fund, are to be promptly invested for the benefit of said Sinking Fund, as stated above.

These Bonds are receivable by the Trustees AT PAR AND ACCRUED INTEREST, in payment for any of the lands at their latest appraised value.

The Bonds are for sale at the low price of

NINETY AND ACCRUED INTEREST, IN CURRENCY.

Government, State and City Bonds, and all marketable securities received at highest market price in exchange for above. Money or securities to be exchanged for these Bonds can be sent by express, and these Bonds will be forwarded in return by express, free of expense to the purchaser. Pamphlets giving full account of the business, connections, &c. of the Road,—and maps showing location of the Road and of its lands, sent by mail on application to

ELIAS MERRILL,

FIRST NATIONAL BANK, - - BANGOR, MAINE,

GENERAL AGENT of E. & N. A. RAILWAY,

FOR SALE OF SAID BONDS,

to whom all remittances for, and correspondence in regard to these securities, should be addressed.

☞ To make a complete and unbroken line of Railway from Halifax, Nova Scotia, to Portland, Boston, New York San Francisco, and all the chief cities of the United States, there will then only remain to be built some sixty-five miles, between Dorchester, New Brunswick, and Truro, Nova Scotia,—and this, (a part of the Intercolonial Railway) is already in process of construction and will be completed in 1872. (It is heavily subsidized by the Canadian Government.) The distance by railroad from Halifax to Bangor will be 458 miles, to Boston 706 miles and to New York 940 miles. The distance from Halifax to New York by water is 700 miles, and 70 hours is generally required to make the passage by steamer. On completion of the E. R. through to Halifax, the time occupied in the journey will be thirty hours by express trains, thus enabling passengers and mails to go to and from Europe VIA Halifax in FORTY HOURS less time than is now required. This great saving of time, together with the consequent shortening of the Ocean passage, will add greatly to the business of the E. & N. A. RAILWAY.

NEW LOAN OF THE UNITED STATES

The subscriptions to the New Five Per Cent Stock of the United States now amount to about $80,000,000. They are confidently expected to reach $200,000,000 by the time the New Bonds are ready for delivery in May. The proposals of the Secretary of the Treasury will then be changed to the following programme:

First—Bonds to the amount of three hundred millions of dollars, payable in coin, at the pleasure of the United States, after fifteen years from the date of their issue, and bearing interest payable quarterly in coin, at the rate of four, and a half per cent. per annum.

Second—Bonds to the amount of three hundred millions of dollars, payable in coin, at the pleasure of the United States, after fifteen years from the date of their issue, and bearing interest payable quarterly in coin, at the rate of four, and a half per cent. per annum.

Third—Bonds to the amount of seven hundred millions of dollars, payable in coin, at the pleasure of the United States, after thirty years from the date of their issue, and bearing interest, payable quarterly in coin, at the rate of four per cent. per annum.

Subscriptions to the loan will have preference, after the above-mentioned two hundred millions are taken up, in the following order, namely:

First—Subscriptions for equal amounts of each class of bonds.

Second—Subscriptions for equal amounts of bonds bearing interest at the rate of four and a half per cent., and of bonds bearing interest at the rate of five per cent.

Third—Subscriptions for any five per cent. bonds that may not be subscribed for in the preceding classes.

Subscriptions to the remainder of the $200,000,000 of five per cents., which are unconditional, are now going on, and the bonds will soon be issued to the subscribers, who can receive a scrip certificate in advance, if they desire to pay their gold or exchange United States 6-20's at once, in the registered or coupon form. Registered bonds will be issued of the denominations of $50, $100, $500 $1,000, $5,000 and $10,000, and coupon bonds of each denomination except the last two. The interest will be payable in the United States at the office of the Treasurer, any Assistant Treasurer or designated depository of the Government, quarterly, on the first days of February, May, August and November, in each year.

The bonds of the several classes aforesaid, and the interest thereon, are exempt from the payment of all taxes or dues of the United States, as well as from taxation in any form by or under State, municipal, or local authority.

After maturity, the bonds last issued will be first redeemed, by classes and numbers, as may be designated by the Secretary of the Treasury.

The reduction of the public debt since the close of the war of the rebellion, and the relief, at the same time, to the annual burden of interest, are as follows:

Principal of debt, 1865,	$2,756,985,275
Paid under Johnson,	265,585,371
Principal, March 4, 1869,	$2,491,399,904
Paid under Grant,	223,983,673
Present public debt,	$2,268,316,231
Interest charge, 1865,	151,832,651
Reduced in four years by payment and funding,	25,442,591
Interest charge, 1869,	$126,385,550
Reduced in two years by payment,	12,052,996
Present interest charge,	$114,336,552

The proposed further reduction of the annual interest charge upon the public debt by refunding is as follows:

By exchange of $500,000,000 United States six per cents for new five per cents of 1881,	$5,000,000
By exchange of $300,000,000 United States six per cents for four and a half per cents of 1886,	4,500,000
By exchange of $709,000,000 United States six per cents for four per cents of 1901,	14,000,000
Total saving per annum by refunding	$23,500,000

The whole proceeds of the new loans will be applied to the payment or redemption and cancellation of the 5-20 years six per cent. bonds, and in addition to these proceeds, the 5-20's are now being retired by purchase at the rate of $10,000,000 per month.

LATEST NEWS IN BRIEF.

There was a heavy frost in the interior towns of New York, Sunday night.

The town of Faguendos, in the Ohio oil regions, was entirely destroyed by fire Sunday night.

The caisson for the New York end of the East River bridge, was successfully launched on Monday. It weighs $23,000 tons.

H. C. Long, Edgar Nutter and Omry E. Chapin, were killed, and several other settlers carried off at San Pedro Valley, Cal., by the Apaches, last week.

The officers and crew of the German gunboat Metzer, now at New York, are to be given a public reception by the Germans of that city.

Another suit has been brought against Peter B. Sweeney, to recover $25,000 lodged by John O'Mahoney of the Fenian Brotherhood with August Belmont.

At St. Louis Mo., on Saturday night, Weston completed his walk of 200 miles (2 being backwards), in 40 hours, 50 minutes, and 45 seconds.

Four children of J. N. Owen, of Wolfe Creek, Outagamie county Wisconsin, were poisoned last week, by eating wild parsnips, and three of them died.

The N. Y. Times says that a scrip dividend of fifty per cent, by the Cleveland & Pittsburg Company, would seem to be in contemplation, if not already a subject for the approval of the stockholders.

An excursion party including a number of Boston gentlemen interested in the Kansas Pacific Railroad, on Friday assisted in laying the rails across the State line between Kansas and Nebraska.

The coroner's jury in the case of Ruth, of Lawrence, Kansas, have returned a verdict that deceased came to his death by poison, supposed to have been administered by Dr. Mendicott.

At a meeting of over 300 miners at Hyde Park, Pa., on Saturday, it was unanimously resolved that: "We hold out to the bitter end and when we resume work we will do so on our own terms." The strike is by no means ended, and the resumption may not take place before July 1st.

The St. Charles Hotel and adjoining livery stable propery in Syracuse N. Y., has been purchased for $120,000 by a prominent Methodist, who proposes to donate the same to the Methodist Book Concern of New York, for the establishment of a large branch of their publishing house. Part of the building will be used by the University Law School.

Thirty-three indictments for counterfeiting have been found by the United States Court in the Pittsburgh, Pa. District, against various persons, one of whom is charged with eighteen distinct offences, the maximum penalty for which is 240 years imprisonment, the minimum, 90.

A gallery in the Sing Sing (N. Y.) Prison across which the men were marching to dinner on Friday gave way, precipitating over eighty convicts, some to the next gallery below and others to the stone pavement, forty feet beneath. It is feared that two of the prisoners are fatally injured.

The Medical Convention at San Francisco held another stormy discussion on Friday over the question of admitting women as delegates. After a long and bitter wrangle the matter was indefinitely postponed and the Convention adjourned sine die. On Saturday the Association took an excursion around the bay, and most of the delegates were to start for home on Monday.

The commission to examine and report on the condition of the United States steamer Tennessee say she evinced no signs of unseaworthiness, and proved in all respects as staunch and perfectly safe a vessel for the duty assigned her as ever floated; and that she was also better adapted for this service than any other vessel in the navy.

The bodies of Lieutenants Ashbury and Morrison and their six comrades, Sergeant Dowle, Coperal Hobbs, and privates Hadley, Sharkey, Pierce and Mooney, drowned at Fort Niagara, Thursday, in an attempt to save a life-boat which had gone adrift, have been recovered. The accident was witnessed by many people, but the sea was running so high that it was impossible to launch a boat or give assistance.

A CLERGYMAN MURDERED IN HIS PULPIT.—The most dastardly outrage heard of for a long time was perpetrated on Saturday, at Chocoville, a quiet and flourishing village in Sebastian County, Arkansas. The following particulars are given by Hon. E. E. Henderson, Sup't. of Public Instruction in that District, who passed through Chocoville on the day when the murdered man was buried:

On Saturday morning as the Rev. Mr. DeChamp of the Missionary Baptist Church at Chocoville, was about to open religious services, and while the congregation was still gathering, a ruffian named Handley entered the meeting-house, revolver in hand and approaching the minister, asked him his name. On being told, Handley levelled his revolver at Mr. DeChamp and fired four shots at him, three of which took effect in the head and one in the arm. The demoniac assassin then wheeled round and, levelling his revolver at the congregation, drove them out of the house with curses and imprecations and threats of death. The affrighted people of course hastily fled in every direction. The murderer then leaped upon his horse, tied up to the building, and galloped off. He has not yet been captured.

As to the cause of the murder, the following is said to be the man Handley, who has previously borne a notoriously bad character, some four years ago interrupted in the most scandalous manner a religious meeting at which the unfortunate Dr. Dabbs officiated, for which offence the latter had him indicted before the Grand Jury, and succeeded in getting Handley sent to the State Prison, where the deceased was then living for four years, during which time he treasured up in his heart a deep feeling of revenge, and only waited an opportunity to imbrue his hands in the blood of a good man, who, in the discharge of his ministerial duties, endeavored to lead an erring brother to the path of duty.

TUESDAY MAY 9 1871

PARIS UNDER THE SWORD

Since the 15th day of last September, when the German armies completed the investment of Paris a period of almost eight months the once gay and festive capital has been under the rule of the sword, a large portion of the time subjected to a destructive and terrifying bombardment and the more terrible sufferings of starvation, while internal dissensions have added to the sum of calamities which have fallen with cumulative weight upon the beautiful metropolis of licentiousness and of France The spectacle of the magnificent city subjected to the ravages of war with its grand outlying forests felled to the ground its elegant suburban villas and palaces reduced to unsightly heaps of crumbling rubbish its noble boulevards blocked up with the ruins of costly architecture and its historic edifices battered by shot and shell while a mad insurrection is laying waste what has been spared by the siege, is a most pitiable one The very madness of the populace which seems bent upon repelling the generous sympathies that have been evinced, adds to the commiseration with which the world gazes upon a people who, not content with the havoc of a foreign conquest seem bent upon destroying them selves.

It is generally unwise to risk forgetfulness of our own shortcomings in pointing a moral with the retributive calamities of others, and while our own metropolis is ground under a despotism as unscrupulous and little less violent than that of Paris her fate should bring a warning with its lesson There are many, however who will see in this terrible scourge to which the debauched capital of France has been subjected the foot-prints of an inexorable Nemesis recalling the fate of the cities of the plain and the fiery desolation which has more recently swept over the haunts of human slavery The long months of constant dread with the incessant boom of cannon and crash of bursting shell holding the populace of Paris in an unyielding grasp of suspense recall most vividly the protracted siege of Charleston, when the dread 'Swamp Angel' sent its hourly messengers of destruction among a people expiating their rash treason through days and weeks of mortal terror The present insurrection in Paris seems hardly less unreasoning than that of Charleston in 1861 and the struggle appears equally hopeless How long the populace will continue to submit to the wild schemes of adventurers whose crazy violence only adds to the burden of misery as it is the populace of Paris no man can tell In almost any other community the limit of such monstrous sacrifices to the despotism of the mob might be imagined but in France human nature takes on a type peculiar to the race, and develops an eccentricity that defies alike the laws of reason and self preservation If the French problem were to be left for French men to solve there would be a fair prospect of their imitating the Kilkenny cats, but the terms which Germany has in the restoration of order in France promises to cut the struggle short before it has progressed much further Bismarck sees but little chance for the payment of indemnities by a people who so fully industry to exhibit in slaughter each other and paralyzing all agencies for the restoration of prosperity and it is not unnatural that he should grow impatient at delays which are likely to cripple future ability to comply with the treaty stipulations If the Germans enter Paris again it will not be for a brief march through the city but ... the army of a conquering dictat... the ... of the conquered The ... Gen Sherman at a complimentary reception and dinner given him by the Union League Club of New Orleans, April 22d said in the course of his speech

I do not wish my remarks this evening to be reported in the newspaper, for I see that what I said in the occasion of another reception extended to me since my arrival has been entirely misrepresented, and I am credited with words I did not utter at all I therefore hope there are no reporters here to serve me at this pleasant interview as they served me the other to which I have alluded My duty as a Commander of the Army of the country keeps me employed in military matters and by that employment I may be enabled to assist the nation in its civil and political interests but I did not wish to be considered a politician I strive as I can to do what my official duty compels, and in doing that find myself amply employed. I do not seek any civil position whatever, and I do not wish to be suspected of doing so Indeed I should positively decline any offer of a civil or political position. I mean to devote my whole time in the future to the study of the military art, not with a view of destroying, but as a means of promoting the good of all, even the lowest classes of our citizens

The Detroit (Mich.) Tribune, in a commendatory article upon the compulsory education law recently adopted by the Council of that city, says "The man who upholds the doctrine that free schools should be maintained at the public expense can not logically reject the principle of requiring within proper limits the attendance upon them of those for whose education and improvement alone they are maintained."

THE CONNECTICUT ELECTION FRAUD.—There is no doubt in the minds of honest men that a stupendous fraud has been committed by the Democrats in the Fourth Ward of New Haven. It commenced on the night of the election with smuggling into the packages counted a package of 100 Democratic ballots, and was followed up, after it was seen that the first fraud was suspected, by abstracting 100 Republican ballots after the State ticket-box had been left in the office of the Town Clerk, so as to make the count of ballots in the box nearly agree with the number of names checked on the list. This is established by the facts that the Democratic State ticket is 100 in excess of the vote for C. R. Ingersoll, Democratic candidate for Representative, a very popular man in the ward, and that the Republican State ticket runs just 100 behind J L Treat, the Republican candidate for Representative. It is also shown that this vote gives English a majority of 232 in a ward where his highest majority hitherto has been only 79 The Moderator testified that the ballots, when the count was made, were put up in packages of 100, and this statement is corroborated by the registrars Yet when the box was opened it was found that two of the Republican packages contained but 50 ballots, and they were loosely and carelessly tied, having evidently been tampered with, the others being firmly tied All the Democratic packages were in hundreds The Town Clerk when called before the Committee, acted singularly He said he could not select the 4th Ward box, as none of the boxes were marked, and it was finally picked out by the Moderator of the Ward The key hole was not sealed, and of eight keys belonging to the eight Ward boxes four would unlock the box The Clerk said he put all the keys in a pigeon-hole and kept them there a day or two, and then placed them in a drawer When the Committee discovered that there were only 479 votes in the box for Jewell instead of 579, as officially declared they immediately ordered the Representatives box to be brought in, and, on counting the votes in that, found that there were 70 Republican ballots The vote for the Democratic State ticket, as returned, recounted, and taken from the tally, did not vary, being 718, but on representatives showed only 610 On Saturday declarations were obtained from 520 Republicans in the Ward who voted for Jewell, and there was no doubt of finding the remaining 59 who made up the Republican vote as cast Evidence of the most direct character will be produced to establish the fraud clearly within every legal bound, and there is a good promise of defeating the purposes of the perpetrators of the outrage

THE TREATY SIGNED BY THE HIGH COMMISSION A Washington dispatch states that the treaty was signed by the High Commissioners at the Department of State on Monday The gentlemen after this was done exchanged congratulations on the result of their labors, expressing the belief that they had done the most they possibly could for the peace and honor of the two countries. Although the Commissioners have been cautious in talking to persons outside their own circle, the following points are said to be authentic

First there are to be two boards of arbitration or commissions To one will be referred the Alabama and other similar claims which are recognized as national and to be settled on the principle of responsibility for such depredations where the government has not exercised the utmost diligence and possible precaution to prevent privateers being fitted out in its ports to prey upon the commerce of a power with whom it was at peace The other board is to take cognizance of miscellaneous claims, British and American, and to consider principally those originating during the period from the commencement to the close of our late civil war

The Boston Journal's Washington special gives the following statement concerning the treaty

Massachusetts interests have been well looked after It has been the earnest desire of her hardy fishermen for some years to again enjoy the privileges of fishing along the shores of the British Provinces, and of landing to cure their fish, which the United States surrendered under the treaty of 1818 This much desired privilege is to be restored by the treaty, and reciprocal privileges are to be granted the Dominion fishermen, with provisions for an award of money to the country which can be shown to be a pecuniary loser The nation wronged the fishermen of Massachusetts by the treaty of 1818, and it is well that the nation should now repair that wrong

The payment of the Alabama and kindred claims, by a positive reference to a joint commission to be governed by well defined rules, can but be acceptable to the claimants in Massachusetts and elsewhere along the coast, and if British subjects hold claims against the United States which are just and right it is proper that provisions have been made at the same time for their adjudication and settlement.

The British claims against the United States are of two kinds First, there are the personal claims of British subjects, who were conscripted and forced to perform military service or to procure substitutes These are comparatively small in amount, and many of them eminently just. Secondly, are what are known as the cotton claims, for cotton, tobacco, &c., taken by the Union troops and generally sold, leaving at this time, I believe, some eighteen millions of dollars as a special deposit in the United States Treasury Now when foreigners have brought suits in the Supreme Court for property thus taken from them, as in the case of the suit brought by the Rothschilds for their tobacco seized at Richmond, the Court has invariably directed the repayment of the money in the Treasury to the claimants. The United States Commissioners have doubtless looked after the interests of this country in settling this part of the controversy, and seen that there will be no imposition possible.

That provision is made for the definite arbitration of the San Juan boundary, which has been for the past ten or a dozen years a bone of contention, all must be glad of, and the definite provision for the navigation of the Dominion Canals and the river St. Lawrence, should be satisfactory, especially to the dwellers on the great Lakes, who desire this outlet to the sea.

While these practical provisions in the treaty for a pacific settlement of our difficulties with Great Britain will find favor with all, except those who wish to protract and foment them, other and higher questions will be placed on a basis that can but be acceptable to the thoughtful people of the United States

Judge Benedict in the U S Circuit Court at New York, gave a decision on Monday, in favor of the government against Westry, Gibbs, & Hardcastle, for the extra amount of duty claimed on a cargo of rice imported in 1864 with interest. The decision is to the effect that under the law the liquidation of the Collector is final This decision virtually settles a large number of cases, in which over five millions of dollars is involved, and the appeal will be taken to the U. S Supreme Court.

TROOPS SENT TO SOUTH CAROLINA. The President has taken steps to protect the citizens of South Carolina from further Ku-Klux outrages and to enforce the existing laws Some days ago orders were privately given through the War Department to send a strong body of cavalry, a detachment of infantry and several pieces of artillery to Charleston and Columbus for use in any counties where the civil authorities are powerless to give protection and where the laws are ignored. A portion of these troops were ordered from the West, and the remainder from various points in the South where no immediate necessity exists for their presence. By the present time it is supposed that nearly the whole of this military force have arrived within the borders of South Carolina, ready to be used in enforcing the laws. A company of cavalry was expected to arrive at Charleston by Thursday morning, and proceed at once to the counties in the upper part of the State, ... Baron Gerolt ... the 28th ...

RESUMPTION AT THE MINES. Some of the men at Minersville, Pa., resumed work Monday morning at operators' terms: for miners $13, inside laborers $11; outside laborers $10, per week and ten per cent. off for contract work. Two more collieries at Mahanoy resumed on Monday upon the operators' terms, and others are preparing to follow. The operators consider the strike in the Pottsville vicinity virtually ended.

The Internal Revenue receipts on Monday, were $718,857, and the subscriptions to the new loan $124,000

The government on Monday recovered $104,000, the full amount claimed from Chas. Lilienthal, tobacconist of New York, for making false returns of sales

Soldiers of the War of 1812,

ATTENTION!

Congress has passed a law giving a Pension of $8 per month to the officers, soldiers and Seamen of the war of 1812, who served sixty days or over, and to the widows of such as have died, and who were married previous to 1815, thus doing justice to this brave and meritorious band of patriots. I have all the rolls and records of this service, and they are not to be found at any other place in this State, to my knowledge.

I will give every soldier the benefit of these records to establish his claim to a pension and I will assist him in the prompt and speedy prosecution of his claim. If the soldiers' discharge is lost, these records are invaluable.

The fee is fixed by law at $10, no charge made unless a pension is obtained.

Application can be made in person at my office in Bangor, or by letter, giving name of Company, officers, date and length of service, &c.

CONSUMPTION.

ITS CURE AND ITS PREVENTIVE,

By J. H. SCHENCK, M. D.

Many a human being has passed away for whose death there was no other reason than the neglect of known and indisputable proved means of cure Those near and dear to family and friends are sleeping the dreamless slumber into which had they calmly adopted

DR JOSEPH H SCHENCK S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines they would not have fallen

Dr Schenck has in his own case proven that wherever sufficient vitality remains that vitality by his medicines and his directions for their use is quickened into healthful vigor

In this statement there is nothing presumptuous To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works The theory of the cure by Dr Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self assuring, self convincing. ...

CONSUMPTION

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophyllum Peltatum. They possess all the blood-searching alterative properties of calomel but unlike calomel they

'LEAVE NO STING BEHIND '

The work of cure is now beginning The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected The liver like a clock is wound up It arouses from its torpidity The stomach acts responsively and the patient begins to feel that he is getting at last

A SUPPLY OF GOOD BLOOD

The Seaweed Tonic in conjunction with the Pills permeates and assimilates with the food Chylification is now progressing, without its previous tortures Digestion becomes painless and the cure is seen to be at hand ... The ... greatest Blood Purifier ever yet given ... Nature ... Lungs ... expectoration ... the dignity of regular vigor ...

GIVEN UP AS LOST.

The second thing is the patients must stay in a warm room until they get well it is almost impossible to prevent taking cold when the lungs are diseased but it must be prevented or a cure cannot be effected Fresh air and riding out especially in this section of the country in the fall and winter season are all wrong Physicians who recommend that course lose their patients if their lungs are badly diseased and yet because they are in the house they must not sit down quiet, they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood The patients must keep in good spirits be determined to get well This has a great deal to do with the appetite and is the great point to gain

To despair of cure after such evidence of its possibility in the worst cases and moral certainty in all others is sinful Dr Schenck's personal statement to the Faculty of his own cure was in these modest words

Many years ago I was in the last stages of consumption confined to my bed, and at one time my physicians thought that I could not live a week then like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me It seemed to me that I could feel them penetrate my whole system They soon ripened the matter in my lungs and I would spit up more than a pint of offensive yellow matter every morning for a long time

As soon as that began to subside my cough fever pains and night sweats all began to leave me and my appetite became so great that it was with difficulty that I could keep from eating too much I soon gained my strength and have grown in flesh ever since

I was weighed shortly after my recovery, added the Doctor, 'then looking like a mere skeleton my weight was only ninety seven pounds my present weight is two hundred and twenty five (225) pounds and for years I have enjoyed uninterrupted health

Dr Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr J H Schenck, Jr still continue to see patients at their office No 15 North Sixth street, Philadelphia every Saturday from 9 A M to 3 P M Those who wish a thorough examination with the Respirometer will be charged $5 The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not

The directions for taking the medicines are adapted to the intelligence even of a child Follow these directions and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses the three medicines need no other accompaniments than the ample instructions that accompany them First create appetite Of returning health hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer Good blood at once follows, the cough loosens the night sweat is abated In a short time both of the morbid symptoms are gone forever

Dr Schenck's medicines are constantly kept in tens of thousands of families As a laxative or purgative the Mandrake Pills are a standard preparation while the Pulmonic Syrup as a cure of coughs and colds may be regarded as a propylacteric against consumption in any of its forms

Price of the Pulmonic Syrup and Seaweed Tonic $1.50 a bottle or $7.50 a half dozen. Mandrake Pills, 25 cents a box For sale by all druggists and dealers.

To the Honorable Judge of Probate for the County of Penobscot

The undersigned Guardian of Charles H Bartlett of Bangor, in said County, Minor Heir of Ichabod D Bartlett, late of Bangor in said County, deceased, respectfully represents that said Minor is seized and possessed of the following described Real Estate viz, A lot of land in said Bangor at the intersection of Main and Cedar Streets on the north westerly side of Main and the south westerly side of Cedar Streets bounded as follows Beginning at the point where the south westerly line of Cedar street intersects the north westerly line of Main street thence running north-westerly along said line of Cedar street eighty-three (83) feet thence at right angles with said Cedar street south westerly seventy five (75) feet thence at right angles and parallel with Cedar street south easterly, one hundred and two (102) feet and one (1) inch to Main street thence north-easterly by Main street seventy-seven (77) feet and three (3) inches, to the starting point being lot numbered one (1) on F. H Coomb s Plan of Circus Grounds, dated November 1st, 1870 and recorded in Penobscot Registry of Deeds, in Plan Book 2, page 50

Also a certain parcel of land situate in said Bangor on the south-westerly side of Cedar street bounded and described as follows Beginning at a point on the south westerly side line of Cedar street, one hundred and eighty three (183) feet north-westerly from the north westerly side line of Main street thence running north westerly along said line of Cedar street one hundred (100) feet, thence at right angles south-westerly one hundred and fifty (150) feet, thence at right angles south-easterly, and parallel to Cedar street, one hundred (100) feet, thence at right angles and north-easterly one hundred and fifty (150) feet to the point of beginning on Cedar street, subject to the Widow's right of Dower therein.

That it would be for the benefit of said Minor that said Real Estate should be sold, and the proceeds thereof put out at interest, or otherwise used for his benefit.

He therefore prays that license may be granted him to sell and convey the above described Real Estate at public or private sale, according to the requirement of Law.

THE HIGH COMMISSION

London, May 8. The Times of to-day, in [illegible] article upon the labors of the Joint High Commission, expresses a hope that the Congress of the United States will be willing to accept and approve the work of the negotiators. "The treaty" says the Times, "is yet [illegible] provisional and must be ratified by both Houses of Parliament." Of this, however, the Times seems entirely confident.

THE "SUPPLY"

The U S Storeship Supply, which recently brought a cargo of provisions for the French sufferers by the war, has sailed for America by way of Lisbon.

A LOOK-OUT RIOT.

London 8. There was rioting to-day at Oldham, originating in a lock-out.

THE ANGLO-AMERICAN TREATY.

WASHINGTON, D. C., May 8.

Among the claims to be considered by the Second Board provided for in the treaty just signed, are the St. Albans claims for damage to property in that town by Canadians, but no claims for the Fenian invasion of Canada are to be admitted. As to claims of British subjects for seizures of their cotton Great Britain through its Commissioners does not recognize them in cases where such subjects took up a domicile in the South, as thereby they subjected themselves to all the risks and contingencies of the war. All legitimate claims for cotton will however be considered. It has been reported without warrant that they will amount to thirteen or more millions, but this is considered to be a great exaggeration. They will not probably amount to a million of dollars. There will be no difficulty in ascertaining all the particulars as the Treasury Department has all the dates and particulars concerning the seizures of cotton. The government is aware that a full list of British claims was recently published in that country but also has information that many of them have already been adjusted, while others will not come within the provisions of the treaty. Among the claims which also come before this board will be that of our government growing out of the purchase of salt petre in the East Indies during the war, and which was seized by the British authorities. There are other miscellaneous claims which will come before the second board.

The San Juan question will be referred to the arbitration for a friendly sovereign probably the Emperor of Brazil. From the character of the documents accompanying the treaty it is inferred that the decision cannot fail to be in favor of the United States. The treaty provides for the free navigation of the St Lawrence by vessels of the United States and for the use of Canadian Canals on payment of regular tolls. There are also provision regulating the privilege to fish in Canadian waters but these have not been ascertained with sufficient accuracy to justify a statement of them. The only doubt in the above statement, is to whether there is only to be one or two boards, but it is certain that the Alabama and kindred claims are to be considered separately from other claims.

The London Times was mistaken to-day in saying the treaty must be ratified by both Houses of Parliament, though it will require legislation to carry some of its provisions in to effect.

CONNECTICUT LEGISLATURE

NEW HAVEN Ct May 8

The second session of the Legislative Committee was held here to-day. A memorial with 303 signatures of citizens who voted for Jewell was presented in evidence. Testimony of counters was received to prove Jewell's vote tied up in packages of 100 each, and outside testimony to show 79 to be the Republican vote announced at the polls. To complete the testimony all citizens of the Fourth Ward who voted for Jewell were put on the stand. 370 have testified, so far and more are expected to-morrow.

HARTFORD Ct., May 8.

Declarations signed by 300 Republicans, presented to the Legislative Committee in New Haven, to-day to the effect that they voted for Marshall Jewell, in the Fourth Ward where the committee only found 479 Republican votes in the box. The committee desiring other evidence than a simple declaration subpœnas were issued and the voters appeared personally and swore they voted for Jewell. Up to 10 o'clock to-night 70 had so sworn, and the investigation is still going on.

J E Adams a well known coal dealer, died suddenly to-day of heart disease.

FROM WASHINGTON

WASHINGTON, May 8.

The investigation of the condition of farm animals of the U S recently made by the Department of Agriculture, shows that fewer losses either from disease or winter exposure, have resulted during the past season for several years previous by losses, amounting to millions of dollars have been heretofore reported, but no epizootic has prevailed lately in any portion of the country. The restrictive laws and practice of gathering Texas herds in the frontier depot have reduced the ravages of the Kine fever. The Foot and Month disease which spread through portions of New York and New England is not fatal and has nearly disappeared. Pleuro-Pneumonia has been reduced to a few cases near cities of the Middle States. Horses have been comparatively healthy. Swine have exhibited the greatest comparative mortality but less than in former years. Sheep have suffered slightly from disease. Farm stock of all kinds are almost uniformly in good condition. The hay crop was short last season but of excellent quality. The corn crop was very large and fed liberally. Better care than usual was bestowed upon farm animals and their improved condition is attributed to the abundant feed more than human treatment and mildness of the past winter.

The Olympics are endeavoring to perfect arrangements with the Boston club, to play them in New York while in that city, but the latter has not yet accepted the proposition.

FROM THE PACIFIC COAST

SAN FRANCISCO, May 8.

Warm and dry weather prevails. Strawberries are a drug on the market. Six hundred chests arrived on one train on Saturday and they are retailing at from 4 to 6 cents per pound.

Ship Leibig has been wrecked on Baker's Island, but she has not gone to pieces, and may be gotten off.

The California press is severe in its comments on the Medical Association, characterizing it as a congregation of unpractical old fogies.

Travel to the Yosemite Valley never was so great as at the present time.

AMERICAN HOME MISSIONARY SOCIETY. The Forty fifth Anniversary of the American Home Missionary Society was celebrated in New York Sunday evening in the Tabernacle. The service was conducted and the sermon preached by Professor Bartlett. The 45th anniversary report was read. During the past year the number of ministers of the Gospel in the employ of the Society has been 940 in 29 different States and Territories. Three missionaries have preached to colored congregations and 42 in foreign languages. Number of congregations supplied in whole or in part, 1957, number of pupils in Sabbath Schools, 71,530. During the year, 93 churches have been organized and 48 became self-supporting. Ninety churches report revivals of religion; and 407 missionaries, who report 2921 hopeful conversions. The receipts for the past year are $246,567, expenditures $283,617, leaving $10,028 still due the missionaries for labor performed. In addition to these, past due appropriations and daily becoming due amount to $148,455, making the total pledges $164,484 to redeem, and to apply to other appropriations [illegible] treasury of $13019.

LOCAL AND STATE ITEMS

[illegible]

—Muddy streets and roads.

—Exchange street needs renumbering

—Carriage builders and repairers are busy

—High water in rivers, streams, wells and cisterns

—The gutters in West Market Square are being re-paved

—The Orono National Bank has a new safe

—It has been a good time lately to find leaks in roofs

—People begin to talk Fourth of July—Shall Bangor celebrate?

—The Maine Central has a handsome and convenient new baggage car

—Main street is to be paved with crushed stone

—Good weather for grass and ducks lately

—Business was brisk yesterday in spite of the dubious weather

—The stone foundation for Geo W Pickering's block on Main street is commenced

—The first strawberries of the season have arrived in this market

—Speaker Blaine leaves New York to-morrow for his home in Augusta.

—Foot ball matches are frequent on our up town streets

—The Police were all out in their new uniforms yesterday, and looked gorgeous in blue broadcloth and brass buttons

—It is still that the fishes are all taking refuge under the bridges to keep out of the rain which they expect daily

—Twenty boarders are in the County Jail, and there are lots more people that ought to be there

—The Street Commissioner will make many improvements on the Hampden road and its sidewalks and bridges this season

—One of the new Pullman cars will be run over the Maine Central Railroad to-day to see that everything works right

—Quite a number of our citizens who formerly wore the blue have gone or intend going to Boston to attend the G A R. and Army of the Potomac meetings this week

—The mouth has two thousand one hundred and eighty seven expressions. If you don't believe it, just keep watch next time you are "down in the mouth"

—Butler is preparing for warm weather and thirsty people by putting up a splendid new soda fountain in his store in Kenduskeag Block

—A large number of tons of stone have been hauled to the city stone-crusher on the Hampden Road, and it is kept busy all the time

—There is to be a meeting of the Bangor Mercantile Association this evening. Important changes in the regulations of the institution may be made

—Two cars have been purchased of the Hartford & Erie R R by the Maine Central Company, and will be fitted up for smoking cars at the Company's works in Augusta

—It would not be correct to state that the organ grinder is turning away still. He is yet on the same spot not having turned away, and his box of condensed tunes is far from being still

—The earth removed in preparing for the foundations of Pickering's and Adams & Co's blocks, is used to grade the grounds in front of the new jail

—It is proposed to require the officers of the customs to wear a uniform. Secretary Boutwell has received letters from various collectors approving the proposition as calculated to promote the interests of the government of the merchants

—We saw yesterday a new cart built for S & J Adams & Co, the well known wholesale dealers in Fancy Goods, by W F Whiton & Co of this city. The vehicle is intended for carrying goods through the country is very thoroughly and strongly built and handsomely painted, and is a credit to the builders

—The Joy McCarty mystery in Saco has been solved by the discovery on Sunday of Joy's body, which had been washed ashore on the beach about two miles west of the Pool. There is no doubt now that Joy and the McCarty girl committed suicide by drowning themselves at the same time

—The Weekly Courier with Supplement, published at this office this morning contains thirty-eight and one half columns of reading matter, exclusive of the advertising columns, and is one of the best family papers in New England. $2 per annum, strictly in advance, five cents for a single copy

—A cable dispatch from London announces that the bark George Annie, Capt M A Dyer, from Liverpool April 6th for Boston has been abandoned at sea. The crew were saved and have arrived at an English port.—The G A was owned by M A Dyer and others of Harrington; she was built in 1868 and was 559 tons N M.

—The engineer in charge of the work of improving the channel of the Penobscot at and below this city expected to begin operations on the 15th, but the rise in the river necessitates a postponement. $10,000 of last year's appropriation for this purpose remains unexpended, and with this year's appropriation—$50,000—gives the sum of $60,000 to be used.

—Prof Hebbard gives his fourth lecture in Norombega Hall this evening, on the throat, chest, diaphragm and lungs—their uses and abuses, diseases, &c. As a large proportion of the deaths in this State are from diseases of the lungs, our people are in duty bound to obtain all the knowledge possible regarding the matter

—The Directors of the Maine Central Railroad will make an excursion over the road from Boston to this city in company with the officers of the Eastern and P S & P Roads on a Pullman palace train on Tuesday of next week. They will be accompanied by ladies and a few invited guests. From this city they will go over the E & N A Railway to Mattawamkeag

—About 9 o'clock Saturday evening, fire was discovered around the chimney of S Steven's store in Dexter. The fire department of the town turned out promptly and succeeded in subduing the flames before much damage was done. The loss on the building is probably $150 and Mr. Stevens' goods were considerably damaged by water and smoke. Dr. Haynes, who occupied an office on the second floor loses considerably, Passett & Leighton, photographers, on the same floor, also lose something.

BODY FOUND. Yesterday at Frederick Badershall's Landing, about one mile below Brewer Village, was picked up in the water, the body of a man 45 or 50 years old, which had lain in the water since fall or winter, by its appearance, and can now be easily identified. This man was about 5 feet 8 inches in height, a little bald, with thin black hair, and short gray whiskers, had on a heavy black reefing jacket, buttoned with one button, dark plaid vest, new gray shirt, dark pantaloons with black stripe on each leg, patched on the knees, and carefully tucked into the boot-legs. He had on white woolen drawers, a pair of good boots, well greased, and which had never been tapped. A small white comb with a few pieces of tobacco was found in one pocket, and a jack knife with two blades [illegible]

Reynolds and Thomas G. Dunscomb employed in the boot and shoe manufactory of Mr. F. Whittier, situated in the rear of Mr. F. O. Withers' jewelry store on Exchange street, opened a show case in the latter establishment with a key he had stolen and abstracting two watches—one of gold valued at $175 and the other plated and worth $25—made his escape through the back window. Reynolds, alias Dunscomb had been at work for Mr Whittier since the middle of March, and had always behaved like an honest man, and as the jewelry, watches, &c. in Mr. Withers' were kept locked up it was thought safe to leave him alone in the store, especially as Mr Whittier returned from his dinner a few minutes after Mr Whittier left.

A RELIC. We are indebted to Dr Benj Colby, State Lecturer of the Grand Division, Sons of Temperance, for a copy of the "Bangor Register" dated Thursday, July 6 1820, which he found somewhere in Piscataquis County lately. The number presents an odd appearance to the reader of modern newspapers. But two local items are printed—one an account of the annual meeting of the Maine Missionary Association, and the other as follows

The Celebration

Of our INDEPENDENCE in this town was postponed to some future day. Notice will be given when it takes place

One advertisement shows that the officials of a neighboring town were solicitous for the welfare of its citizens. We give it verbatim et literatim

GEORGE LEONARD } *Selectmen of Brewer*
WM COPELAND }
Dated Brewer June 20 1820

—A public breakfast of clergymen and members of the Evangelical churches of Portland and vicinity took place at the Falmouth Hotel Monday morning at which the formation of an International Christian Moral Science Association was urged by Rev Dr [illegible] other General Secretary for Great Britain. Rev Dr Carruthers of Portland presided.

A QUARRELSOME GATHERING OF REFORMERS. At a session of the New England Labor Reform League in Tammany Hall, New York Sunday evening, Parker Pillsbury discoursed upon the relations of capital to labor. He argued that the various trades were divided into branches that working men only knew how to do a certain part. This divided their strength and rendered them an easier prey to the machinations of capitalists only union would beget strength. He greatly lamented the prevalence of intemperance among them. Mrs E L Daniels of Boston said with all due respect to Parker Pillsbury she was disgusted to hear him say that workingmen had so many bad habits. It was not so—the rich are much more guilty. Jesus Christ was the first labor reformer, and worked for the poor and lowly. During her remarks the speaker was annoyed by continual interruption which the chair vainly attempted to quell. At the close a disorderly and exciting scene occurred. Mr Pillsbury had risen to explain the meaning of his remark, but was unnoticed by the chair, whereupon he took his hat and left. Mr Wolff after repeated efforts gained the floor and severely criticized the chairman for not allowing Mr Pillsbury to speak. The chairman Mr Orvis in rather a rettled manner declared that as Mr Pillsbury was in his rear, and he had no eyes in the back of his head he did not see him. Mr Haywood denied that Mr Pillsbury reflected anything against the workingmen. Mrs Daniels and others entered into the discussion and amidst the din and wrangle the convention adjourned. A gentleman who had been spoiling for a speech now mounted the platform and poured forth a volley of eloquence regardless of the fact that the audience was in full retreat. The exasperated janitor now shut off the gas and the oration suddenly ended, in the dark

THE ANCHOR OF THE 'PHILADELPHIA. Mr George L Douglass, Captain's Clerk on board the U S S Guerriere, from Tripoli, that Captain Stevens has obtained from the Pasha permission to remove to the Guerriere the anchor of the Philadelphia, which has been lying on the beach at Tripoli ever since Commodore Decatur burned that ship in 1804. The Pasha consented very willingly to its removal. It is very large and heavy, and was only gotten on to the Guerriere after great difficulty but Captain Stevens believed it worth all the trouble on account of its connection with one of the great naval events in American history

A DISASTROUS FIRE. A very destructive conflagration occurred at Wilmington, Del, on Monday. The fire caught in the Kindling Wood Factory of Geo W Bush, from the engine furnace and communicated to the Oil House attached to the Philadelphia & Baltimore Railroad shops and locomotive Round House the latter containing some 15 locomotives, all of which took fire, and some were badly injured. Two locomotives outside, and one just built are supposed to be destroyed. The loss to the Railroad Company is very heavy, including the Oil House, Pattern House and Round House. The roof of the General Repair Shop was also damaged. G W Bush loses a building, and a sloop burned at the wharf

AFFAIRS IN THE DOMINION. A dispatch from Ottawa, Canada, Saturday, says the Parliament has been busy till ten o'clock every night. A bill regulating the police force, and making many changes for the better, will be introduced. Next week the Government will bring down their homestead bill. It will be one of the most liberal measures on the Continent. Lands, houses, cattle, &c., will be protected from creditors. Advices from Winnipeg, to the 15th ult, state that the Lieutenant-Governor is about sending twenty persons around the boundaries of the Province to parley with the Indians, and assure them that a treaty will be made with them. Some difficulty will be experienced in freighting to and from Manitoba owing to the prevailing cattle disease which attacks the mouth and feet. Neither horses nor cattle are allowed to go from Ontario to Winnipeg, and all freighting is done by Minnesota lines. Representations have been made to the authorities which may result in the exemption of the horses and cattle of Manitoba from this regulation.

The [illegible] High Commission and [illegible] [illegible] the 24th [illegible]

G. A. R. General Logan stated in New York on Sunday, that he was not a candidate for re-election to the Grand Commandership of the Grand Army of the Republic, and was willing to trust the members to settle the question of the presidency among themselves not believing that they would permit any one to use it for political purposes

AN IMPORTANT RAILROAD LEASE. The N. Y Times' financial article on Monday says that it has been definitely settled during the past week, that the Pennsylvania Rail Road Company has absorbed the old and wealthy Camden & Amboy and Delaware & Raritan Companies, by a perpetual lease, on a guarantee of ten per cent on a capital of forty millions

MEXICO. Advices from the City of Mexico to 30th ult., state that the Juarez party triumphed on the final vote on the Guerrero question, the vote being 95 to 90. It was a test question for the administration, and a Ministerial crisis is not now imminent. Juarez will keep Romero and Mejia as long as long as they will stay in the Cabinet.

Capt Hervey of the Belleville (N J) Laundry, after a six months experiment with the coolies, makes some interesting statements concerning them. They do not work as rapidly as girls, and he therefore pays, though less in amount, nearly as much relatively as he does the girls. He has increased his force of Chinamen to one hundred. All the girls who left at the time of the introduction of the coolies have returned

POLITICAL AND PERSONAL

LULU'S COMPLAINT.

BY HESTER A. BENEDICT.

I'm a poor little sorrowful baby
For it digot a way down stairs,
My titties has stuffed my finger,
And Dolly won't say her p'rayers.

I'm sure I'm my toothful mamma
Since I was bo ado,
And I'm sicker than eat baby
I'm sick for I tigot so I so

My mass'ter another new baby,
Dad dived it—He did—yes today,
I don't like it a oh so doleful
I wish He would take it away

I'm sure I want no "sweet little sister"
I want my sheef mamma, I do,
I won't her to kiss, an I'm so
An tall in I'm precious I am

I know my bld pegs will b n me
A little dood titten some day
But, sure, will my mamma's now baby
I wish we'd old into it away

Oh oh what tuanlp yed finders!
It seems as you ont o be yeou!
I'm, will it, I'm tell ive it
Sure as my whole ver it kies

I bess I will flix it my Dolly
I pay with I is sorry I by
And I'll be I dess an I'll g t
As I don't t t take it away

THE WIDOWERS WOOING OR CAUGHT IN A TRAP

BY MISS S TORFMAN

CHAPTER II

Captain Bainbridge as he was called though as yet but a lieutenant in the 2d Life was a strikingly handsome young man, with a ling of his father about his kind heart and cheery manner The woman ador I have and thought him awfully nice and He was when the occasion offered His father was immensely proud of him, and ab mindly thought him the image of himself, or wished was at his age saving his height If three young men arrived just in time to ss Fanny at the evening of the 10th, and had on their descent to the drawing room it with of the Tipperary family seated in the to see them

He was raving, spouts, the ten minutes' p ed at with his son had quite forgotten Lm Earl of the truth must be told, his had h rather crushed of late The three , and in were presented all round in their to the Countess and the five ladies course My son, said J B, with pardon ake pride as he introduced Herbert "Captain Lovell a friend of Herbert's, Sir John Nelson another friend, and now I think we all know each other" he added cheerily, "and I trust dinner would come I'm uncommon hungry

Hungry dear Joseph?" said Lady Blanche you can't be, John, you forget the luncheon y I ate I'm sure it's not good for you to eat so much

Herbert shot a quick glance at his father to see why he took it To his surprise he per ved a grateful smile on his father's coun and heard him say in tones too low a be near little thing, what care it takes of its I seph

Common thought Herbert to himself The old gentleman gives it her hot and strong Just like him to choose such a "scare row to spoon I'm ashamed of the govern

However, when dinner was announced, the captain gave his arm to the "scarce ow," and continued forthwith an animated con versation with her of the most complimenta ry nature 'Lucky man the governor is" he said after a time "he wrote me word you were the most beautiful woman in England What an eye he has for a woman, to be sure, I've not seen my one like him He told me of your lovely golden hair By Jove, what a fan this

Lady Blanche simpered and looked down She was rather taken aback by the guards man's sudden and marked admiration Was her hair golden She never knew it She ured for dinner to be over, that she might fully examine herself in her glass

How complimentary you are, Captain Fairbridge" she said at last You really must be careful what you say

And she threw the captain with wide-pencilled eyes a look too complimentary in speaking of you and to you? Happy governor

He took it in the happy voice of a fond, fond wife "Glad to see you, Harry

It was only a look of admiration, but it made him feel the image of himself, or what he
